

MKK plus
with supplementary equipment

Milling

MKK plus

Monobloc bridge saw

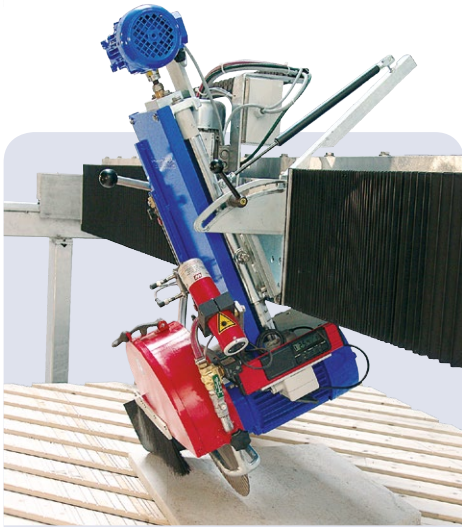

Cutting to length and cross cutting of natural stones with high demand of cutting depth.

The MKK plus is designed to be easy to use with a high powered motor and – due to heavy steel construction – also suitable for milling. The side adjustment of bridge (option) completes the various fields of application.

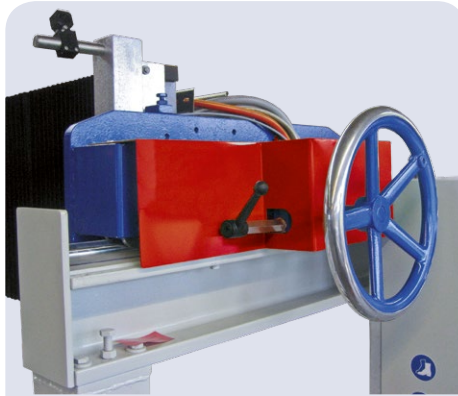

MKK plus

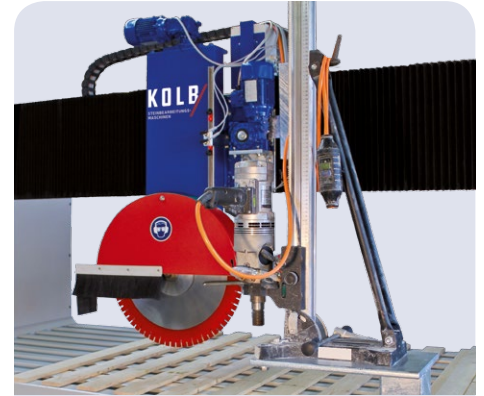

Monobloc bridge saw

Tilting device 0° - 45° (mitre cutting)
(optional)

Side adjustment with digital readout
(optional)

Drilling machine
(optional)

MACHINE PERFORMANCE

- 11 kW (15 hp) flatmotor with special sealing
- Linear saddle guides – fully protected with bellows
- Motorised cutting feed – infinitely adjustable (x)
- Motorised height adjustment of blade (z)

TECHNICAL FACTS

Cutting length:	1500 (2000) mm
Cutting depth:	up to 150 (200) mm
Diamond blade-Ø:	500 (650) mm
Motor:	11 (15 hp)/400V/50Hz
Dimensions:	3,5 (4) x 1,4 (2,1) x 2,2 (2,5) m
Weight:	approx. 2000 kg
Colour:	RAL 7035 grey RAL 5010 blue RAL 3000 red

OPTIONS

- 2 speed motor 11 kW - 960/1400 rpm
- Watertank (stainless steel) with pump
- Roller table (hot galvanized)
- Tilting device (0° – 45°) for mitre cuts – with manual gear and digital readout
- Side adjustment of bridge part (y) – 1000 mm with handwheel, digital readout
- Remote control (on cable)
- Laser (red) as cutting indication
- Drilling machine (3 speeds) mounted at roller table
